

What's New

Thermia Genesis Online

Date: 2018-06-28

What's new?

This update will make the *Thermia Genesis* Online service more stable, trustworthy and generate a better user experience. Besides this, minor updates have also been made in the user graphic interface with updated design and improved graph functionality.

What do I need to do?

The already registered Online users will automatically be logged out. When signing in again the updated Online service will appear. No need of updates/downloads of the APPs for smartphones or tablets, which will also be automatically updated when signing in again.

In case you have forgotten the password to your Online account, you will need to reset the password by pressing "*Forgot password?*" on the sign in page. A new password will automatically be send to the registered email address of the Online account.

The login screen features the Thermia logo at the top left. Below it, the heading "Welcome to Thermia Online" is displayed. The instruction "Login to access your heatpump" is followed by two input fields: "Email*" and "Password*" (with a toggle eye icon). A blue "Forgot password?" link is positioned to the right of the password field. At the bottom, there is a blue "LOGIN" button and a "Create an account" link.

The reset password screen features the Thermia logo at the top left. Below it, the heading "Welcome to Thermia Online" is displayed. The instruction "Enter your email to receive a new password to your email" is followed by an "Email*" input field. At the bottom, there is a blue "RESET" button and a "Cancel" link.

Highlights

Improved status page

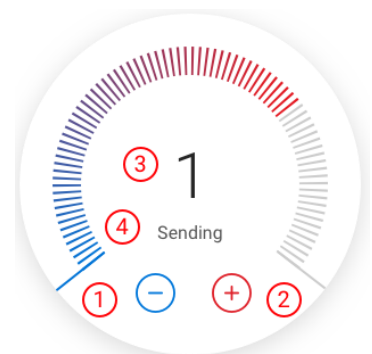

Updated status/start for easy overview and navigation.

The screenshot shows the Thermia Genesis Online status page. At the top, there is a navigation bar with icons for STATUS, DETAILS, GRAPHS, and EVENTS, and a user dropdown menu labeled 'John Smith'. Below the navigation bar, there is a search bar and a selection box for installations. The main content area features a welcome message 'Welcome back, John!' and a status indicator 'Thermia 1 is online'. A central gauge displays the indoor temperature '23°C' and a large number '1'. To the left, there are temperature indicators for Outdoor (16°C), Indoor (23°C), and Water (44°C). To the right, there is a 'Your model' section with details like 'Profile: Diplomat 921' and 'Program version: 0.13'. At the bottom, there is a section for 'Active events and alarms (0)' with a message 'No active alarms or events. Everything is working fine, enjoy your day!' and a 'Your retailer' section for 'Thermia Arvika' with contact information.

1. User dropdown menu
2. Navigation links
3. Installation search and selection box
4. Device name and status
5. Indoor temperature gauge
6. Temperature info
7. Your model info
8. Your retailer info
9. Active events and alarms (0)

Redesigned Gauge for temperature control

1. Decrease of the desired room temperature. One click means one degree decrease.
2. Increase of the desired room temperature. One click means one degree increase.
3. The current set temperature change compared to the heating curve.
4. Communication status. If temperature is changed you will see the communication status(sending/received).
